HEALTHYSTEPS

WHAT IS THE HEALTHYSTEPS NETWORK?

Together with our national network of sites, we transform the promise of pediatric primary care by promoting nurturing parenting and healthy development for babies and toddlers, so they are prepared for school and life.

WHAT IS THE HEALTHYSTEPS APPROACH?

Recent scientific developments in understanding early brain and biological development tell us that the early years are important to all of us – the capacities and skills developed during this critical period become the basis of a prosperous society. The HealthySteps model is based on the most recent scientific understandings and helps to ensure individual, family, community, and societal well-being.

KRHC'S HEALTHYSTEPS SPECIALIST:

A child development expert, promotes nurturing parenting, which improves babies' and toddlers' healthy development and well-being in the pediatric primary care office. Together with cutting-edge our pediatric primary care practice, we prepare young children for school and life.

For More Information, or read about HealthySteps directly, visit their website: www.healthysteps.org

PEDIATRIC CARE • SUPPORTING • PARENTING
